DIA KHAN

Junior Full-Stack Developer | AI-Powered Web Applications
Multan, Pakistan | khandia017@gmail.com

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building, integrating and deploying full-stack and AI-powered applications in real-world projects. Experienced in developing scalable backend services and REST APIs using Python and FastAPI, building responsive web applications with React and Next.js, and working with TypeScript and PostgreSQL. Experienced in role-based multi-tenant systems, API integrations, RAG-based LLM applications, and AI-driven solutions, with practical experience in deploying applications to AWS EC2 and setting up CI/CD workflows using GitHub Actions. Strong understanding of end-to-end application development, from development and integration to testing and deployment.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, PHP, SQL, HTML5, CSS3
Frontend: React, Next.js, Responsive Web Design, UI Development
Backend & APIs: FastAPI, Node.js, Express.js, Laravel, REST APIs, API Integration, Authentication, Role-Based Access Control (RBAC), Celery, Redis
Databases: PostgreSQL, MongoDB, Database Design, Relationships & Queries
AI Engineering: Generative AI, RAG, LLM Applications, Prompt Engineering, Computer Vision
Tools & DevOps: Git, GitHub, Docker, GitHub Actions, CI/CD, AWS EC2, Cursor, Claude Code

EXPERIENCE

TechTix
Junior Full-Stack Developer September 2026 – Present

- Working on full-stack software development projects involving frontend, backend, and AI technologies.
- Contributing to application development, integration, testing, and deployment.
- Collaborating with the development team and applying modern software development practices.

Junior Full-Stack Developer Intern June 2026 – September 2026 | 3 months

- Contributed to software development projects involving frontend, backend, AI technologies, and end-to-end application development and deployment.
- Worked as part of a development team while applying modern software development practices.
- Demonstrated effective communication, teamwork, professionalism, and the ability to quickly learn and apply modern development practices.

FREELANCE & CLIENT PROJECTS

RAG-Based AI Chatbot — Medical Company *Client Project | FastAPI, React, RAG, AWS EC2, GitHub Actions*

- Delivered an end-to-end AI chatbot that lets staff query company-specific knowledge in natural language, with responses grounded in retrieved internal documents.
- Built FastAPI backend services and REST APIs, a React frontend, and the retrieval pipeline connecting the LLM to the client's knowledge base.
- Set up a GitHub Actions CI/CD pipeline and deployed the application to production on AWS EC2.

Mortgage & Loan Management SaaS Platform *Client Project | FastAPI, Next.js, TypeScript, PostgreSQL*

- Developed features for a multi-tenant SaaS platform handling complex loan workflows across six user roles (Super Admin, Admin, Team Lead, Loan Officer, User, Borrower).
- Implemented role-based access control, loan management workflows, PostgreSQL-backed features and frontend–API integration across the platform.
- Collaborated on “Bevri Brain”, the platform's integrated AI assistant, and its integration into the SaaS product.

AI Facial Recognition Access Control System *Final Year Project | Python, OpenCV, Machine Learning*

- Built a real-time facial recognition system that captures, processes and verifies faces to grant or deny physical access.
- Applied machine learning, image processing and authentication concepts to design a secure, automated access-control workflow.

EDUCATION

BS Information Technology — Bahauddin Zakariya University, Multan | CGPA 3.8 / 4.0 2022 – 2026
Intermediate (ICS) | 954 marks 2020 – 2022
Matriculation (Science) | 1008 marks

LANGUAGES & INTERESTS

Languages: English (Fluent), Urdu (Native)
Interests: Building side projects, exploring emerging AI technologies, reading technology blogs
